STAFF SCRIPT - WHAT TO SAY

"Hi! We'd love your feedback. Just scan this QR code with your phone camera - it takes 10 seconds. If you had a great experience, it helps us a lot on Google. If anything wasn't perfect, we want to know so we can fix it. Thank you!"

Tips for staff:

Mention the QR code during checkout or when handing over the bill.

Keep it natural - a friendly mention is enough, no pressure needed.

If a customer seems happy: "Would you mind leaving us a quick review?"
